Pure Eco picnic set II

Article number: 20002265

Series: Pure

header afbeelding

Product description

The Pure Eco picnic set II is a picnic set with a **natural look**. The picnic set consists of two long benches and a picnic table. Unique to the picnic sets in the Pure series is that the picnic set fits in both an **urban** and **natural** environment. This picnic set is a long variant of the Pure picnic set III. The combination of wood with **corten steel** emphasizes the natural character of this picnic set. Since this picnic set consists of separate elements, it is possible to provide one or both benches with a backrest. This makes it even more comfortable to sit at the picnic table. This picnic set **combines** well with the other products in the Pure Eco series.

Features

- Natural look
- CO2 remains stored in the wood
- Suitable for both green and urban environments

Staatsbosbeheer

For Staatsbosbeheer, **sustainable harvesting** is, in addition to **protection and experience**, a form of utilization. The cooperation with Grijsen gives this wood a useful application in the form of the Pure benches and it will last for years. The **stored CO_2** thus remains stored in the wood.

Material

Douglas has undergone a special preservation process. This is based on vacuum pressure, whereby ingredients are used that come from nature and are 95% mineral-based. The impregnated elements have increased durability and therefore belong to durability class 2/3. The **lifespan** even **equals** the **growth period** of the tree.

Extra information

Length	3000 mm
Width	1610 mm
