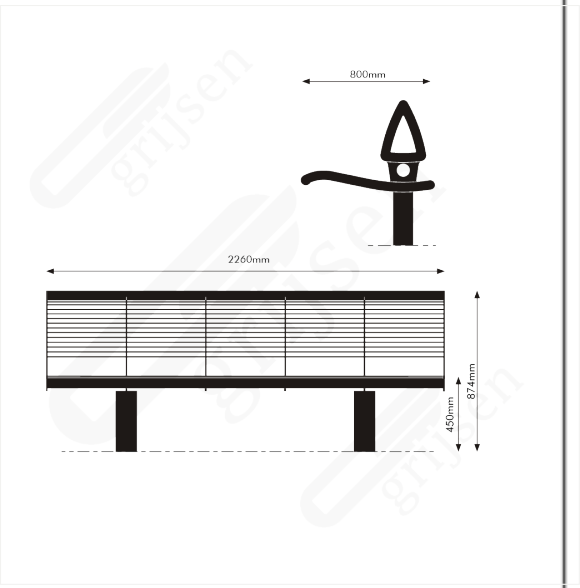
Wenters single seat with backrest (steel)

Article number: 20000004
Series: Wenters



Product description

It is even more pleasant to sit on the Wenters bench with a backrest. This steel bench has the same **powerful** and **elegant** appearance as the other benches in this series but is equipped with a **backrest**. Thanks to this backrest, in combination with the **wavy seat**, you can sit backrest and enjoy the public space.

Features

- Ergonomic design
- Additional seating comfort through the backrest
- A real Winterswijk bench!

A real Winterswijk bench!

The **'Wenters'** (dialect for Winterswijk) bench is a popular model. The bench was developed in 1998 for the redesign of the Winterswijk market. The first example can still be found in the same spot over **twenty years later**. The solid benches in this series are an **elegant** and **powerful** appearance. Its success is partly determined by the undulating and **ergonomic** shape of the seat. This shape ensures that the bench is wonderfully relaxed.

Materials

The steel version of the bench has a transparent and modern appearance due to the use of reclining bars. The bench is quickly dry after rain because rainwater does not remain on the furniture. The steel is hot-dip galvanized and two-layer powder coated in a RAL color of your choice.
